Description:

Fixing clip suitable for angle- and double standing seam.

Attaching on the pre-profiled standing seam.

Size, measurements and thickness of material according to the expert regulations of the German plumping crafts.

Designation with rounded corners.
With special holes for countersunk screws.

Packing unit: 500 pcs.

Its features are that the clips are easy to assemble. The special **upper part** makes easy clamping possible. So the clips can't slip down before they are fixed.

Please note our large product range around metal roofs: snow retention systems, step brackets, solar holders and our program about clips. Further informations you will find on our homepage.
